8:00 a.m.		Enke-Off To-dd-	
E. August. At 10125 e.m., nine jet lombers took off at intervals of 30 seconds, essential in a formation and crossed the field in a squadron wedge formation. It is a planes landed at 10:50 a.m., at intervals of about 30 seconds. August. Etween 9 and 11 a.m., that there was early stivity, at 1 p.m., 10 jet bombers were counted at the field.  12 August. A jet bomber took off at 10:12 a.m., circled once over the field and 12 August. A jet bomber box off at 10:12 a.m., circled once over the field and landed at 10:50 a.m. In noise of a starting engine was board at 10:17 a.m. at 20:50; a.m., a 20:00-10 jet bomber landed at the field. Flying continued up to about 5 p.m. Four type-27 jet bombers arriving engine was board at 10:17 a.m. at 20:50; a.m., a 20:00-10 jet bombers arriving engine of the field. There are continued up to about 5 p.m. Four type-27 jet bombers arriving engine of the field. There are continued up to about 5 p.m. Four type-27 jet bombers arriving arriving the field in flying arriving the field and field a four field almost vertically upward.  The radio truck which had been observed at the radio installation with four masts on 31 July was no longer there on 5 August.  The radio truck which had been observed at the radio installation with four masts on 31 July was no longer there on 5 August.  The radio truck which had been observed. (1)  between 11 a.m. and h p.m. on lif August, there was no flyin; at the field. The field was heavily marrived observed and between the field. Those planes were probably stationed only temporrily in Finster alde. The page in the planes were probably stationed only temporrily in Finster alde. The remaining 10 planes extended with the number of planes counted on four days the information that 15 sections off at 1 p.m. on 27 Earch 1052 was		7:49 a.m.	25)
9 August. Between 9 and 11 a.m., 10 jet bombers were counted at the field. 10 and 11 August. No are activity was observed. 12 August. A jet berbor took off at 10:12 a.m., circled once over the field and landed at 10:10 a.m. The noise of a starting engine was heard at 10:17 a.m. At 10:55; a.m., a kyne-30 jet bombers landed at the field. Flying continued up to about 5 p.m. Four type-27 jet bombers participated in flying 25 per 10:18 p.m. Four type-27 jet bombers participated in flying 25 per 10:19 p.m. Four type-27 jet bombers participated in flying 25 per 10:19 p.m. Four type-27 jet bombers participated in flying 25 per 10:19 p.m. Four type-27 jet bombers participated in flying 25 per 10:19 p.m. Four type-27 jet bombers participated in flying 25 per 10:19 p.m. Four type-27 jet bombers participated in flying 25 per 10:19 p.m. Field. The 15 Pe-2s which took off from the field at 1 p.m. on after 27 lands, they were no longer observed. (1)  10 between 11 a.m. and h p.m. on 12 August, there was no flying at the field. The field was heavily marched.  11 Consents.  12 The statements of p.m. that the unit at flying was practiced individually air training. The 6 pe-2s observed at Finstorwalds sirfield has progressed in aircraft strength. Additional Pe-2s are believed to be parked in the total hangars. Of the 17 type-27 planes seem were observed at leand airfield. These planes were probably stationed only temporrily in Finstorwalds. The formaling 10 planes consected with the number of planes counted on four days coupled with 10 to 12 type-27 planes and an undetermined number of Pe-2s. Provided that the information that 12 pe-2s took off at 1 p.m. on 27 Earch 1952 was 25		E August. At 10:25 e.m., nine jet hombers took off at intervals of 30 seconds.	25
At 10%%; a.m., a type-30 jet bomber landed at the field. Thying continued up to about 5 p.m. Four type-27 jet bombers		of August. Petween 9 and 11 a.m., that there was sir activity. At h p.m., 10 jet bombers were counted at the field.  10 and 11 August. No air activity was observed.  12 August. A jet berber took off at 10:12 a.m., circled once over the field and landed at 10:00 a.m. the period of the circled once over the field.	25
The radio truck which had been observed at the radio installation with four masts on 31 July was no longer there on 5 August.  the 15 Pe-2s which took off from the field at 1 p.m. on 27 Earch, they were no longer observed. (1)  Between 11 a.m. and h p.m. on 12 August, there was no flying at the field. The field was heavily quorded.  The statements of and in transition show that the unit at Finsterwalde sirfield has progressed in air training. The 6 Pe-2s observed undoubtedly do not represent the total hangers. Of the 17 type-27 planes seven were observed at Erend sirfield. These planes were probably shetioned only temporrily in Finstermalde. The remaining 10 planes coincide with the number of planes counted on four days remaining 10 planes coincide with the number of planes counted on four days are information that 11 Po-2s took off at 1 p.m. on 27 Earch 1952 was		At 10x54 a.m., a type=30 jet bomber landed at the field. Flying continued up to about 5 p.m. Four type=27 jet bombers participated in flying, (1)	25 25
The radio truck which had been observed at the radio installation with four masts on 31 July was no longer there on 5 August.  27 March 1952 had formerly been conspicuously parked in front of the hangars.  28 After 27 March, they were no longer observed. (1)  Between 11 a.m. and h p.m. on 12 August, there was no flying at the field. The field was heavily quorded.  Connects.  The statements of	Ú nj	AA guns of 85-mm caliber were still emplaced on the northern edge of the field, heir barrels pointed almost vertically upward,	
the 15 Pe-2s which took off from the field at 1 p.m. on after 27 March 1952 had formerly been conspicuously parked in front of the hangars. After 27 March, they were no longer observed.
